

**We love to connect...
engineers and technology**

TOP-electronics is...

- a knowledge-driven distributor and representative
- a specialized technology provider
- focused on customer requirements
- a partner of high-tech world-leading manufacturers
- providing professional, technical and logistic support
- an ISO certified company
- globally present with offices around the world

Innovate your design with TOP-electronics

TOP-electronics is a knowledge-driven, technology provider, specialized in the distribution and representation of electronic components, modules and solutions.

We offer a wide range of services to support your business at every stage of development and production.

Why choose TOP:

Knowledge & Experience:

Adequate assistance with your product development.

Complementary Products:

Providing multiple solutions for use in a single design.

Wide Product Range:

Access to cutting-edge products from top global suppliers.

Custom Solutions:

Tailored options for your unique design needs.

Expert Support:

Benefit from our technical expertise.

Efficient Logistics:

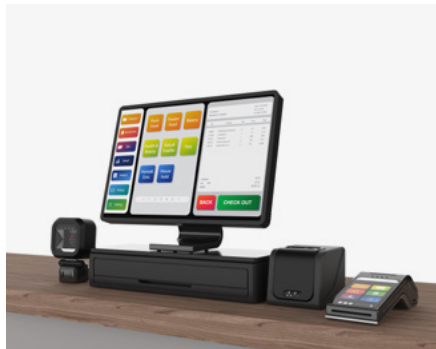

Streamlined supply chain solutions.

Global & Local:

Offices in Europe, the Americas, Israel, and Asia.

Our mission is to help you turn your innovative ideas into market-ready products.

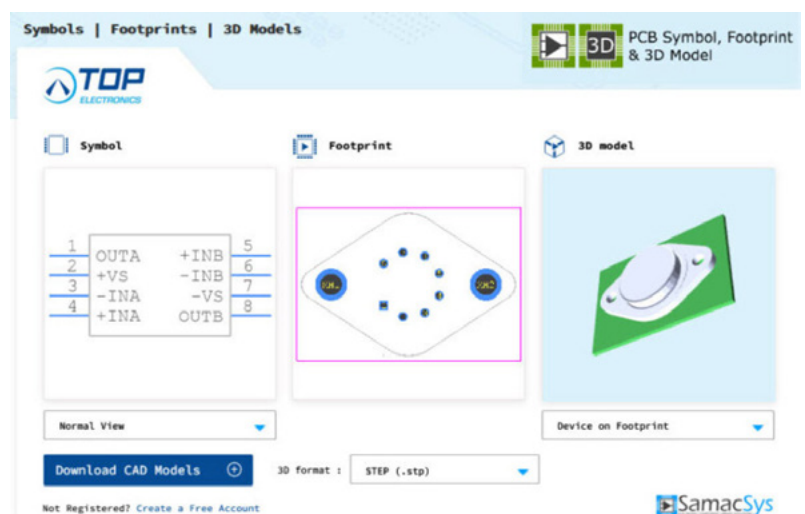

Your trusted technology partner

Simplify your design process with our ECAD Models

TOP-electronics offers ECAD (Electronic Computer-Aided Design) models to streamline the engineering design process.

These ECAD models support CAD tools for precise schematic capture, PCB layout, simulation, and analysis.

Wireless and IoT

- 5G / LTE / GSM / GPRS
- GNSS
- Smart Modules
- Antennas
- Bluetooth
- ISM Band Modules / RF Transceivers
- LoRa
- LPWAN
- RFID
- RF Connectors and Cables
- RTLS Systems
- UWB
- Wi-Fi
- Zigbee

Components

- Microcontrollers
- Real Time Clocks
- Flash Memory
- Voice Control Modules
- MOSFETs
- Crystal Oscillators
- Resettable Fuses
- Audio Codecs
- Buzzers and Speakers
- Microphones
- Enclosures and Hardware
- TVS Diodes
- Flash Controllers
- eMMC Memory

Sensors

- Endoscope Camera Modules
- HD CMOS Camera Modules
- MIPI Camera Modules
- USB Camera Modules
- Raspberry PI Camera Modules
- Hyperspectral Camera Modules
- Thermal Cameras
- Lidar and ToF
- Motion & Orientation Sensors
- Pressure Sensors
- Temperature & Humidity Sensors

Power Conversion

- Wall mount / Desktop Power Supplies
- Battery Chargers
- Open Frame & Enclosed Power Supplies
- Medical Grade Power Supplies
- IPC Power Supplies
- PV Inverters
- AC-DC Power Supplies
- DC-DC Converters
- Power Adapters
- Power Filters

Thermal Management

- Thermal Cameras
- Cooling Fans
- Peltier Devices
- Heatsinks
- Thermal Washers

Connectors and Cables

- Terminal Blocks
- Wire to Board
- Board to Board
- Circular Connectors
- Memory & SIM Card Sockets
- I/O Connectors
- RF Connectors
- Power Jacks
- Data Cables
- FFC Cables
- RF Cables
- Custom Cable Assemblies

TOP-electronics can supply electronics for every application in diverse markets.

We offer tailored solutions for each market's unique challenges. Known for our value-added services, TOP-electronics supports design teams from concept to production, driving innovation, safety, and efficiency.

Let the TOP-team support you to enhance your industry's performance.
